FOUNTAIN VALLEY NURSERY

HOWARD SMITH, PROPRIETOR

POY SIPPI, WISCONSIN

At the present time Strawberry plants are very scarce on account of the very dry season of last year, and I would advise those who intend setting very many plants to send in their order early, we have only the Sen Dunlap and Warfield left to offer, as the short crop and the great demand for plants has taken all of the others.

Terms: Please send Cash with your order.

Claims: For any cause, must be made promptly on receipt of Goods. Shipments Travel at cost and risk of purchaser. Certificate of inspection with each shipment.

SENATOR DUNLAP. This is one of the best medium-sized, early to mid-season varieties that we have ever grown. The fruit is bright red, with a glossy finish shading to a deep scarlet on the under side. Its prominent yellow seed, resembles gold imbedded in highly colored wax. The meat is bright red all through and exceedingly juicy. We always count on a heavy demand for this valuable variety, and so far have always had a heavy demand for it. In many sections where strawberries are grown extensively Senator Dunlap is the leading variety because growers have learned that it is about the surest variety to produce a crop that they can get, and the crop it produces is very, very large. The quality is good and it is a fairly good shipping berry. If you are in doubt what to order and especially if you are inexperienced in berry growing, Senator Dunlap is the variety to plant. It has an extra long flowering season, the flowers being exceedingly rich in pollen; this makes it valuable to plant with a pistal variety. If you have failed on all other varieties, try this one; if you have not failed try this anyway; it is worthy of your best efforts.

WARFIELD. (P.) This is the grand berry for main crop, both for home use and market. We recommend Warfield fertilized with Senator Dunlap for most profitable strawberry crop you can grow if you have a good market for medium early berries. Warfield is and has been the leader for years. Fruit is regular shape dark red and a splendid shipper. We sell more plants of this than of any other variety excepting Senator Dunlap. Resembles Wilson, but is a heavier bearer and better plant maker, and better shipper. Plants are small, more like Crescent; requires a strong staminate about every other row for best results. We recommend to all for profit. It is, and has been for years, one of the standard varieties.

Prices: 25 35c; 100, \$1.00; 1,000, \$6.00; 50 at 100 Rates; 500 at 1,000 Rates.

RASPBERRIES

KING. This early raspberry is one of the leaders with Wisconsin Fruit Growers, and some grow nothing else but Kings for a money crop. The cane is very hardy and a strong grower. The berries are very large bright red, firm,

and are easily picked. The earliness, firmness and size of King will make you money.

Per 25, 75c; per 100, \$3.00; per 1,000, \$25.00.

CUTHBERT. Leading late market variety all over the country; strong grower, very productive fruit firm, large size and of best quality; season medium to late. If you want an all-around late red raspberry plant Cuthbert.

Per 25, 75c; per 100, \$3.00; per 1,000, \$25.00.

ST. RÉGIS EVERBEARING. This new red raspberry was introduced five years ago as the most wonderful of all red raspberries. Fruit begins to ripen with the earliest in June and you have fresh fruit until they freeze in the fall. Berries bright crimson, large size, sugary, with full raspberry flavor. Flesh firm and meaty; a good shipper.

Per 10, 75c; per 100, \$4.00.

GRAPES

NIAGARA. This is the leading white grape through the country. Fruit is large and of a fine quality. If you want a white grape we know of no other that equals Niagara. Occupies the same position among the white varieties as Concord among the black; most profitable market sort. Bunch and berries large, greenish white changing to pale yellow when fully ripe; skin thin but tough. Everyone should have a few white grapes.

DELAWARE. (Red.) The standard of excellence. Ripens with or before Concord. Bunch and berry medium, compact, flesh juicy, very sweet and refreshing; vine very hardy and productive; a slow grower, requires rich soil, good culture and close pruning.

CONCORD. This hardy black grape is decidedly the most popular grape in America and deservedly so. Bunch large shouldered, compact.

WORDEN. (Black.) This excellent grape has come to the front by merit alone. It is as hardy, healthy, vigorous and productive as the Concord, of which it is a seedling but better in quality, sweeter, larger in bunch and berry, and several days earlier. The worst that can be said of it is that it will crack under the conditions that the Concord will. Very valuable for garden and vineyard.

Prices: 2 year strong, each 25c; 10, \$2.25.

GOOSEBERRIES

DOWNING. A large, handsome fruit, green in color; immensely productive; free from mildew, bush strong grower; sells well in market; of fine flavor and valuable.

Each, 25c; per 10 \$2.25.

HOUGHTON. Hardy, entirely free from mildew, well known sort; color pale red, sweet, tender good enormously productive.

Each, 25 cents; 10, \$2.25.

HORSE RADISH

COMMON OR ENGLISH. The well known sort; the one in general use the country over.

Prices: per 10, 25c; per 100, \$1.00.

ASPARAGUS

COLUMBIAN MAMMOTH WHITE. Remarkable for the color of its shoots, which are white, as well as for its vigor, large size and yield.

CONOVER'S COLOSSAL. Large, a strong grower, productive and fine quality.

Prices: per 10, 25c; per 25, 50c; per 100, \$1.50.

CURRENTS

LONDON MARKET. Is the best red currant we have ever fruited. A fine, new variety, a strong grower, large fruit and very productive. Holds its foliage late and is not liable to attack of worms and borers. We advise all to buy London Market. It is the very best currant we ever saw.

Each, 25c; per 10, \$2.25.

VICTORIA. A splendid, large, bright red berry with very large bunches; growth is rather slow, but makes a fine bush. Each, 25c; per 10, \$2.25.

WINTER APPLES

WEALTHY. Medium; roundish, smooth, nearly covered with dark red; flesh white fine and juicy; subacid; good grower and productive. Valuable on account of extreme hardness. October.

N. W. GREENING. Large; smooth, greenish yellow; flesh, fine grained, firm and juicy. Extremely hardy, and a strong, handsome grower. Is being largely planted. December to April.

SUMMER VARIETIES

YELLOW TRANSPARENT. Medium, yellow; good quality; productive and bears early. Middle of August.

DUCHESSE. Large size, roundish; streaked with red and yellow; flesh whitish, juicy; subacid. Tree is vigorous grower, succeeds in the northwest, where many fail. August to October.

ASTRACHAN RED. Large yellow, nearly covered with crimson; juicy, crisp, acid. Tree a medium grower, bears young and profusely; the finest of all early apples. August.

TETOFKY. Medium size, yellow, striped red; juicy, sprightly and very attractive. July and August.

Prices: 5 to 6 feet, 80c each; \$8.00 per dozen.

4 to 5 feet, 60c each; \$5.00 per dozen.

SHADE TREES

MAPLE. Silver. One of the most popular of American Maples, because of its rapid growth, large size and attractively rounded head, with a tendency to graceful arching when carefully pruned. For immediate effects, indispensable. Foliage is luxuriant, bright green and silvery white beneath. Easily transplanted and very hardy. A favorite for the street, park or home.

Prices: 4 to 6 feet, transplanted 25c each; 10, \$2.00.

6 to 8 feet, transplanted, 50c each; 10, \$4.50.

8 to 10 feet, transplanted, \$1.75 each; 10, \$15.00.

ELM. American. The noblest and most dignified tree in the world for the street. Broad arching branches with splendid dark green foliage, affording abundant shade, with a freedom of growth and natural grace commending it to all. Easily grown, and with wide diversity of form, from the upright, broad round head to the wide-spreading and gracefully arched shape.

Prices: 4 to 6 feet, 25c each; 10, \$2.00.

6 to 8 feet 50c each; 10, \$4.50.

8 to 10 feet, 75c each; 10, \$6.00.

SHADE TREES (Continued)

ASH. American White. Rapid growing tree, of fine, symmetrical outline. A valuable street or park tree and should be extensively planted.

Each, 6 to 8 feet, 50 cents; 10 for \$4.50.

BOX ELDER. An esteemed native variety of fine form and peculiar foliage. It grows 30 to 40 feet in a great variety of soils and locations; is hardy, a rapid grower and therefore especially valuable where quick shade is desired.

Prices: 4 to 6 feet, 20c each; 10, \$2.00.

6 to 8 feet, 30c each; 10, \$2.50.

8 to 10 feet, 40c each; 10, \$3.50.

CATALPA SPECIOSA. (Hardy Catalpa.) A fine, hardy sort, well adapted for forest and ornamental planting. The coarse grained, soft wood is very durable and useful for railroad ties, fence posts, etc.

Blooms earlier than others and grows to be a large tree, 30 to 40 feet.

In late summer, its great crop of long, narrow beans, is very effective.

Prices: 3 to 4 feet, 20c each; 10, \$1.25.

6 to 8 feet, 30c each; 10, \$2.00.

8 to 10 feet, 50c each; 10, \$4.00.

SHRUBS

SPIREA ARGUTA. One of the best of the Spireas, with white flowers, in May, and the first of the family to bloom. In early spring the flowers cover the bush like a snowdrift. Foliage light green and handsome all summer.

Each, 50 cents; 10 for \$4.00.

SPIREAS. Anthony Waterer. Flowers from June until frost; a splendid bright crimson. Good foliage; most desirable for shrubby borders, as it does not grow over 2½ feet in height.

Strong plants, each, 35 cents; 10 for \$3.00.

HYDRANGEA. (Paniculata Grandiflora.) This is the most hardy of all the Hydrangeas known; it produces immense heads of sterile flowers, 10 to 15 inches long. These come out in July and continue until frost, being creamy white at the opening and changing to pink later on. The shrub is much branched and every stem carries one of these immense cones, so that the bush appears as a huge bouquet; it should be heavily pruned in early spring.

Prices: 18 to 24 inches, 35c each; 10, \$3.00.

2 to 3 feet, 50c each; 10, \$4.00.

SNOWBALL. (Common.) The well known Snowball. Produces large clusters of snow-white flowers in May.

Prices: 2 to 3 feet, 50 cents each; 10 for \$4.00.

CLIMBING VINES

DUTCHMAN'S PIPE. This vine is hardy in the north and west, a very rapid grower, with large heart shaped leaves and brownish flowers that look like small pipes. It grows so rapidly that it will cover an archway or veranda with dense cool shade in one or two seasons.

QUINQUEFOLIA, or VIRGINIA CREEPER. Sometimes called American Ivy and Woodbine; a very rapid grower, the leaves turning crimson in autumn. This is a native plant, and the hardiest and most rapid climber we have.

CLEMATIS PANICULATA. Hardy in all parts of the United States. The blossoms are pure white, very fragrant and borne in great bunches or clusters covering the plant so

completely as to almost hide from view the rich, glossy green foliage.

WISTARIA. Chinese Purple. The most popular Wistaria grown. Pale blue flowers in pendulous clusters. This is the best Wistaria to grow as a shade for a second story porch as it is a very high climber.

All vines, 2 years strong, transplanted, 50 cents each; 10 for \$4.00.

PEONIES

AMABILIS GRANDIFLORA. Large double white; fringed petals; fine; very sweet.

FESTIVA ALBA. One of the best white varieties. Quite prolific.

HERCULES. Of immense size. Color bright rose to bluish white, deep yellow center.

RUBRA TRIUMPHANS. Early. A beautiful satin finished and intense crimson variety of rich fragrance.

ALBA SUPHUREA. (Mont Blank.) Light sulphur yellow, changing to white.

All varieties: Each, 50 cents; 10 for \$4.00.

HYBISCUS

MALLOW MARVELS. Makes a vigorous growth. Strong roots making a bushy clump five to seven feet in one season and blooming profusely from midsummer to frost. Being an herbaceous plant it dies to the ground in the fall, shooting from the roots again the following spring. The flowers measure from eight to twelve inches in diameter, and are sold in separate colors, in red, in pink, and white.

The plants are extremely hardy having been tested and grown in all parts of the United States and Canada.

Large, strong clumps, 50 cents each; 10 for \$4.00.

YUCCA FILAMENTOSA. (Adams Needle.) Blooms June and July. Height, 4 feet; color, white. A charming plant to group in the hardy flower border or as a specimen plant in the lawn. The tall spikes of bell-shaped flowers and the long, narrow leaves, edged with thread like hair are without an equal.

Strong plants, 35 cents each; 10 for \$3.00.

Prize Collection of Mixed Dahlias

In the spring of 1919 we purchased the entire surplus stock of a Wisconsin grower who had spent years of time and a great deal of money in getting together the very cream of the list in these wonderful flowers. This grower has made a specialty of Dahlias and in this collection you will get the very best in the Cactus Decorative, and show types of flowers. Dahlias are one of the best fall flowers we have, with its great range of colors and forms they are fine for mass planting or as single specimen plants. They have such a long blooming period that you can enjoy them for weeks before the frost cuts them down. They are also a splendid cut flower, lasting for days. Now we are going to offer this grand mixture at a price that you can afford to plant a large number of them and then you have your own roots as they multiply rapidly.

Single divided root, each, 10 cents; per dozen, \$1.00; per 25 \$1.75; per 100, \$6.00.
